

Position: Facilitator/Learning Instructor

Work with manager and project team in designing and delivering training events and workshops in face to face, online and hybrid learning environments. Provide expert instruction in the subject matter and facilitate adult learning using experiential learning techniques.

Qualifications:

- Education: Master's degree in an area of Education that is relevant for international development.
- Exceptional design and writing skills.
- Minimum of five years of experience in instructional design/curriculum development and education is required.
- Demonstrated successful application of instructional systems design (ISD) with an emphasis on assessment and evaluation for learning.
- Flexibility and the ability to solicit input and work with others is essential.
- Experience in developing instructional materials like participant guides, facilitator's guides/instructor's manuals, and multi-media materials in support of training for courses, workshops, self-paced and/or instructor-led online training.

Salary/Rates based on experience. This position is based in Washington, DC.
